ES-09

East Branch Ausable
Town of Keene, Essex County
Total Acres: 246.2
Proposed Classification:
   Wilderness: 239 acres
   Primitive: 4.2 acres
   Wild Forest: 3.0 acres

Non-conforming use(s): Power line
Deed Restrictions: None
Leases: None

This parcel of land abuts the Hurricane Mountain Wilderness. A portion of this parcel is located between NY State 9N and the Ausable River. That section should be classified as Wild Forest and added to the Hammond Pond Wild Forest unit.

The larger section of this parcel, which is located between NY State 9N and the Hurricane Mountain Wilderness, is bisected by a power line. The power line is a Right-of-Way (ROW) over State land.

This parcel is proposed to be classified as Wilderness and Primitive. The power line ROW would be added to the Hurricane Mountain Primitive Area and the remaining land would be added to the Hurricane Mountain Wilderness.

MacIntyre West
Town of Newcomb, Essex County
Total Acres: 7,368.1
Proposed Classification:
  Wilderness: 7,365 acres
  Primitive: 3.1 acres

Non-conforming use(s): None
Deed Restrictions: Yes
Leases: Yes

The MacIntyre West tract abuts the High Peaks Wilderness. It is proposed to be classified as Wilderness and added to that unit. There is a retained 1,935 foot long, 50 foot wide ROW mapped as Boulder Alley Road which loops through a southern portion of this tract. This ROW will be classified as Primitive and added to a new area named the MacIntyre Primitive Area.
MacIntyre East
Town of Newcomb, Town of North Hudson
Former Finch land adjacent to High Peaks
Proposed Class: Wilderness, Primitive, Wild Forest
Proposed Unit: HP, MacIntyre, Vanderwhacker Mtn

MacIntyre East
Towns of Newcomb & North Hudson, Essex County
Total Acres: 6,253.3
Proposed Classification:
  Wilderness: 4,446.6 acres
  Primitive: 8.26 acres
  Wild Forest: 1,798.5 acres

Non-conforming use(s): None
Deed Restrictions: Yes
Leases: Yes

Sections of the MacIntyre East tract abut the High Peaks Wilderness tract. A northern section of the tract is proposed to be classified as Wilderness and added to that unit. There is a ROW which runs through that portion of the tract which will need to be classified as a Primitive Area. South of LeClaire Brook is proposed to be classified as Wild Forest and added to the Vanderwhacker Mountain Wild Forest.

Staff considered an alternative which involved classifying sections of the tract south of LeClaire Brook as Wilderness or Primitive to emphasize the significant wetlands. Staff determined that this area does not provide a sense of remoteness or degree of wildness associated with these classification categories due to the proximity of County Route 25, the Saratoga & North Creek Railway and uses of nearby private lands, including those classified as Industrial Use.

Total Acres: 47  
Proposed Classification: Wild Forest

Non-conforming use(s): None  
Deed Restrictions: None  
Leases: None

Although this parcel abuts existing Forest Preserve land in the Dix Mountain Wilderness, staff have determined its close proximity to the Blue Ridge Road (CR 2), the Northway, and the presence of a private Right-of-Way warrant classification as Wild Forest.

This parcel includes land between the Blue Ridge Road (CR 2) and Palmer Pond. The entire parcel is proposed to be classified as Wild Forest and added to the Vanderwhacker Mountain Wild Forest.
Niagara Brook Tract
Town of North Hudson
Former Finch land on Boreas Road
Proposed Class: Wilderness & Wild Forest

Source: Former Finch
Niagara Brook  
Town of North Hudson, Essex County  
Total Acres: 78.8  
Proposed Classification:  
   Wilderness: 12.2 acres  
   Wild Forest: 66.6 acres

Non-conforming use(s): None  
Deed Restrictions: None  
Leases: None

This parcel is bisected by the Blue Ridge Road (CR 2). The land south of the road is proposed to be classified as Wild Forest and added to the Vanderwhacker Mountain Wild Forest unit.

The land north of the road abuts both the Dix Mountain Wilderness and a section of land classified as Wild Forest. The property northeast of Niagara Brook is proposed to be classified as Wilderness and added to the High Peaks. The Dix Mountain Wilderness will be combined into the High Peaks Wilderness with this action. The property southwest of Niagara Brook is proposed to be classified as Wild Forest and added to the Vanderwhacker Mountain Wild Forest.

Staff considered an alternative which involved classifying all of the lands north of the Boreas Road, as well as the land currently in the Vanderwhacker Mountain Wild Forest, as Wilderness. This alternative was rejected when it was discovered that easement lands northwest of this tract, in the vicinity of Three Brothers Mountain, have retained rights for a snowmobile trail. This area might be needed for a Community Connector trail between Newcomb and North Hudson and a Wilderness classification would have prevented this use. Should the Community Connector trail be located south of the Boreas Road, reclassification of these lands to Wilderness should be re-evaluated.

Benson Road
Town of Mayfield, Fulton County
Total Acres: 3,895.5
Proposed Classification: Wild Forest

Non-conforming use(s): None
Deed Restrictions: None
Leases: Yes

The Benson Road (aka Tomantown) tract is approximately 3,895 acres in size. Lands classified as Wild Forest abut the north and south sides of the tract. Lands classified as Wild Forest were inholdings prior to the State acquiring this tract. The entire tract is proposed to be classified as Wild Forest and added to the Shaker Mountain Wild Forest unit.

Staff considered an alternative which involved classifying a southern portion of the land Wild Forest and a northern portion as Wilderness. The dividing line between the Wild Forest and the Wilderness Areas would include Benson Road and a woods road that connects Tomantown Road to Warner Hill Road Extension. The Tomantown Road is currently used as a snowmobile trail. This alternative proposed that lands currently classified as Wild Forest, north of the Benson Road Tract, would be reclassified as Wilderness and a new Wilderness Area would be created.

Evaluation of the four criteria identified for determining classification, particularly the physical and biological characteristics, lead to a determination that Wild Forest is the appropriate classification. This tract does not have shallow, sensitive soils, steep slopes, high elevations, or extensive wetlands or other unique natural communities.

Total Acres: 2,141.82
Proposed Classification: Wild Forest

Non-conforming use(s): None
Deed Restrictions: None
Leases: None

This land abuts the Deer River Primitive Area. Deer River Primitive Area was classified as Primitive due to its ecologically sensitive habitat that requires Wilderness management. The Deer River Primitive Area (1,870 acres) was not large enough to be classified as Wilderness.

The additional abutting lands do not create an area large enough to be designated Wilderness (10,000 acres), nor are they part of the sensitive ecosystem associated with the Deer River Primitive Area which require Wilderness management. The unclassified parcels also have retained motorized access rights which also preclude Wilderness classification.

The unclassified parcels are proposed to be classified as Wild Forest and added to the Debar Mountain Wild Forest unit.

Anne LaBastille
Town of Webb, Herkimer County
Total Acres: 29.32
Proposed Classification:
   Wilderness: 28.6 acres
   Primitive: 0.72 acres

Non-conforming use(s): Powerline
Deed Restrictions: None
Leases: None

This parcel abuts State land in the Pigeon Lakes Wilderness and has a power line running through the tract. The powerline is a ROW over State land. The ROW is proposed to be classified as Primitive and added as a new area named Twitchell Lake Primitive Area. The remaining land is proposed to be classified as Wilderness and added to the Pigeon Lake Wilderness.

There is a parcel of land south of this one classified as Wilderness. The section of that parcel which has the power line is proposed to be reclassified as Primitive. The reclassification from Wilderness to Primitive is allowed by the FPEIS. The presence of the power line, a non-conforming structure in Wilderness, was not known when the land was originally classified.

Town of Jay, Essex County
Total Acres: 0.27
Proposed Classification: Wild Forest

Non-conforming use(s): None
Deed Restrictions: None
Leases: None

A small, 0.27 acre section of the Sentinel Range Wilderness is separated from the Unit by Private land. This land should be reclassified as Wild Forest and added to the Wilmington Wild Forest. The Final Programmatic Environmental Impact Statement: Guidelines for Amending the Adirondack Park State Land Master Plan (FPEIS) established guidance for when a parcel of land can be reclassified from a more restrictive category to a less restrictive category: Only in exceptional circumstances should lands presently classified as Wilderness, Primitive or Canoe be reclassified to Wild Forest. This should occur only after it has been demonstrated that a highly unusual condition exists, such as the identification of a mapping error, or the existence of a previously unrecognized non-conforming use of a permanent nature. (page 27). This reclassification action meets these criteria.
